

# All fun and games? Exploring respect and relationships online

What can we all do to play our part?

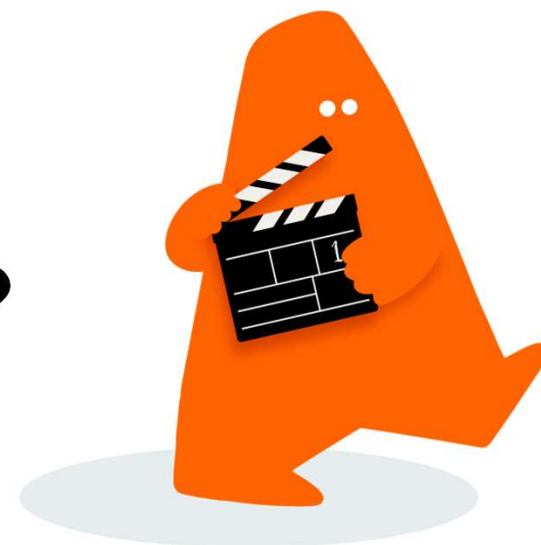

# About Childnet

- Childnet is a UK based charity whose mission is to work with others around the world to make the internet a great and safe place for children and young people.
- The Childnet Film Competition encourages all young people across the UK to get creative and make a two-minute film that shows positive use of the internet!

# Why enter the competition?

- You could win exciting film making equipment for your school or youth group!
- You will create a film that could help other young people stay safe online.
- You will have your film classified by the BBFC, which means it could be screened in any UK cinema.
- Best of all, you don't need any previous experience as everything you need to help you along the way is in your competition pack.

## Please note

For this year's competition, all entries need to come from the school, so you will need to get your entry to Mr Lang in plenty of time, with a permission slip from your parents (more details about all of this later in this document). Last date is **29 May**!

# The challenge...

Create a two-minute film on the theme:

**All fun and games? Exploring respect and relationships online**

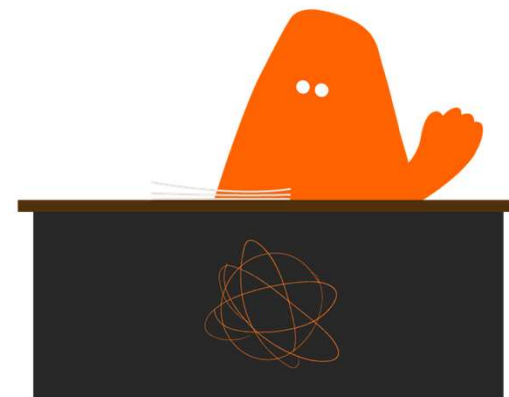

**What can we all do to play our part?**

You can work on your own or in a team (maximum 8 people, including any adults who help you)

## Please note

You will find a project for the Film Competition in WeVideo Classroom, although you are welcome to use any editing program that you choose.

# What does the theme mean?

**Use your planning sheet to jot down your thoughts about:**

- What makes going online and playing games online fun?
- Why is it important to be kind and respectful online?
- What could we all do to be kinder and more respectful online?

*Example: Being kind online makes it more fun for everyone*

# Over to you...

## Step 1:

Using the table on your planning sheet, write down three different film ideas about the theme.

## Step 2:
